Why use uSwitch?

There are a number of price comparison sites around however it is worth noting that these are often run by parent companies who sell insurance/energy etc. uSwitch on the other hand is an independent company, so while it makes commission when you find a deal you want to go with, it makes a similar commission from all the aggregated companies.

Getting Started

Using uSwitch is a fairly simple affair. It is important to get out any existing information about you current providers beforehand, so make sure you have your bills to hand. If you don't you can always estimate, however it is best to be accurate as you can!

This example follows the gas and electric search:

You can choose combined gas and electricity deals, gas only, electricity online, fixed deals and Green and Eco friendly options.

Also of use is a number of customer reviewers (these are *mostly* impartial) you can read to get a better feel of how the company deals with its customers.

Clicking Proceed on the deal you want, you will then be taken to a secure page to fill in more of your information, as well as information requested by the supplier.

This starts the switching process for your suppliers!
